New Service: Imaging Can Be Routed Directly into Provider's Electronic Medical Record Systems

HealthlinkNY has expanded our Results Routing service to now route images directly into provider's Electronic Medical Record (EMR) systems. From right inside their EMR providers will be able to click a link that will take them directly to their patient's imaging. This new service will allow providers and their patients to spend less time transporting and gathering images.

HealthlinkNY Community Network Brings Wellness to the Hudson Valley

As the prevalence of chronic disease rises, along with the cost of medical care, employers pay the price through their employer-sponsored health care costs and the impacted productivity of their workers. The HealthlinkNY Community Network has joined forces with community stakeholders to bring a culture of health to the workplace in the Hudson Valley.

-

HealthlinkNY is a Qualified Entity (QE) funded by the New York State Department of Health (NYS DOH). We operate the Health Information Exchange (HIE) to support collaboration between healthcare providers in 13 counties in the Hudson Valley and Southern Tier of New York. Our HIE also serves as the region's access point to the Statewide Health Information Network of New York (SHIN-NY).

HealthlinkNY has emerged as the region's hub of health information and improvement, and provides vital support to healthcare delivery reform (DSRIP) provider systems. The HealthlinkNY Community Network spearheads the population health improvement programs (PHIPs) in the Hudson Valley and the Southern Tier of New York.
