HealthlinkNY Western Office Grand Opening

HealthlinkNY hosted a grand opening celebration to celebrate its move to a new location. HealthlinkNY's Western Office officially opened its doors on August 3rd to the community at a new location in the heart of downtown Binghamton.

The organization's decision to relocate was driven by its employment expansion and the desire to be in a centralized location to provide easier access to community residents, provide medical seminars for area providers, and facilitate convening operations for the Population Health Improvement Program (PHIP).

The grand opening event began with a welcome and ribbon cutting from the Greater Binghamton Chamber of Commerce. HealthlinkNY then opened its doors to the community with a red carpet step and style, food provided by UHS from Burger Monday's and a chance to meet the staff and learn more about HealthlinkNY.

The new location provides private offices for HealthlinkNY staff, a large space for community events, multiple conference rooms, and extra office space to offer outside community services.

The 9,500 square foot historic office building has played host to a number of businesses since its completion in 1923 when it opened as City National Bank.

Catholic Charities of Chenango County is now accessing the HealthlinkNY Web Portal

Catholic Charities of Chenango County is a non-profit agency that has served its community since 1970. The agency's primary focus is on crime victims counseling, community outreach, mental health and developmental disability services.

Catholic Charities of Chenango County is now accessing patient data through the HealthlinkNY Web Portal. The HealthlinkNY Web Portal is an access-only feature, allowing medical professionals to access their clients' medical information, provided the patient has given consent.

The following information will be available to medical professionals at Catholic Charities of Chenango County when they are treating their patients:

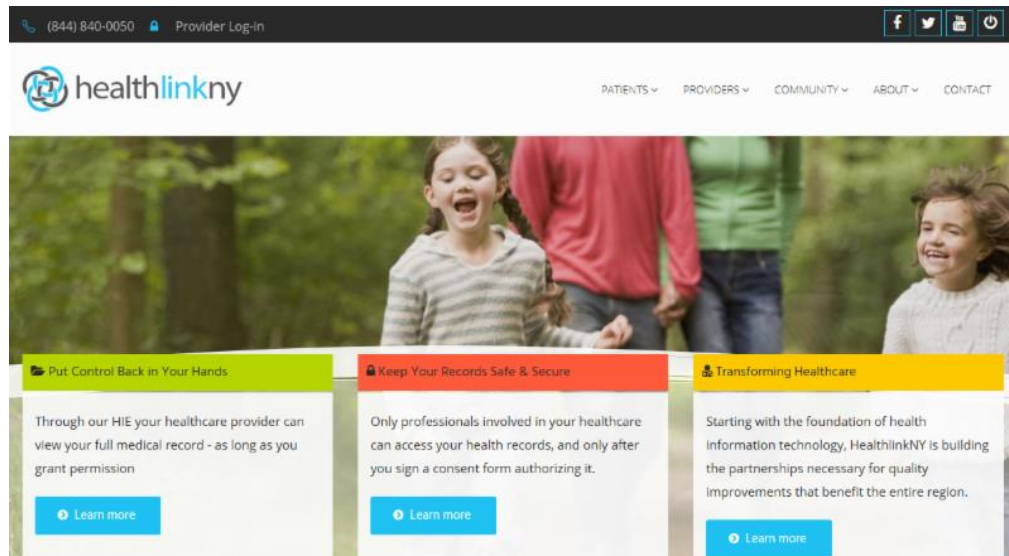

- Immunizations and vitals
- Transcribed reports
- Diagnosis
- Allergies

- Medications
- Procedures
- Radiology and imaging
- Discharge summaries
- Encounters

Medical professionals at Catholic Charities of Chenango County will now be able to provide their patients the best possible care by having the ability to access their patients' complete medical health record from all the various organizations where their patients have received care.

HealthlinkNY Launches New Website

HealthlinkNY launched its new website on August 6th. The new site provides a cleaner look and is more user friendly.

The new site displays clearly defined locations for patients, providers, community initiatives, news, events and information about how to contact HealthlinkNY and its staff members. The site provides an opportunity to learn more about HealthlinkNY and what the Health Information Exchange (HIE) can do for both patients and area providers.

The Community page on the website is dedicated to providing information about the population health initiatives HealthlinkNY is involved in as an effort to help improve

and transform healthcare. This page offers a Community Dashboard Tool provides a one-stop resource for online access to community health indicators, promising practices, funding opportunities and resources that impact the health of our community.
